

# PFAFFIANS TENSORS AND APPLICATIONS

The intention of this meeting is to encourage and facilitate the interaction between different communities engaging with Pfaffians or other tensor-related structures. Particular emphasis is put on explicit methods and applications to different areas of mathematics or other sciences. The goals of the workshop are to connect different communities, exchange knowledge, and inspire one another. The workshop features invited and contributed talks, as well as „open mic“ and free discussion sessions in order to promote more informal discussions.

**The deadline for talk submission is October 1, 2022, the general registration deadline for this event is October 31, 2022.**
